TRACING SUPPLY CHAINS TO NET ZERO

PITCH DECK

VOTAN VENTURES TEAM

Founders

Vijay Sharma
CEO & Co Founder
India

Ex-Gazetted Officer
Department of Telecom, Govt of India
Telecom Supply chain Head

Rachit Gaur
CTO & Co Founder
India

Build libraries currently being used by **70k** Web3 projects & GDPR compliant solutions in Europe.

Advisors & Mentors

Filip Dite
Growth Manager
Czech Republic

Ex-Marketing head at Tatum,
Grew to $100M

Ajit Deshpande
Vice President – Techwave
India

Global delivery manager, Led certification in CMMI & ISO 9001/27001

Pankaj Narula
CTO – Abillion Tech
Ex-Global Head of Blockchain – Sopra Steria

VCHAINED

World's first no-to-low code solution to help supply chains set path towards zero net emissions powered by Blockchain

PROBLEM WE ARE SOLVING

CLIMATE CHANGE

NET ZERO

“Every carbon molecule we put into the air; we remove one”

- Net zero is not just a good to have anymore, but a necessity
- 198+ countries pledged to net zero & have imposed rules & taxes for supply chains making them submit CHG reports

We are here to help companies track and reduce their carbon emissions

IS NET ZERO ACHIEVABLE?

Next to impossible due to:

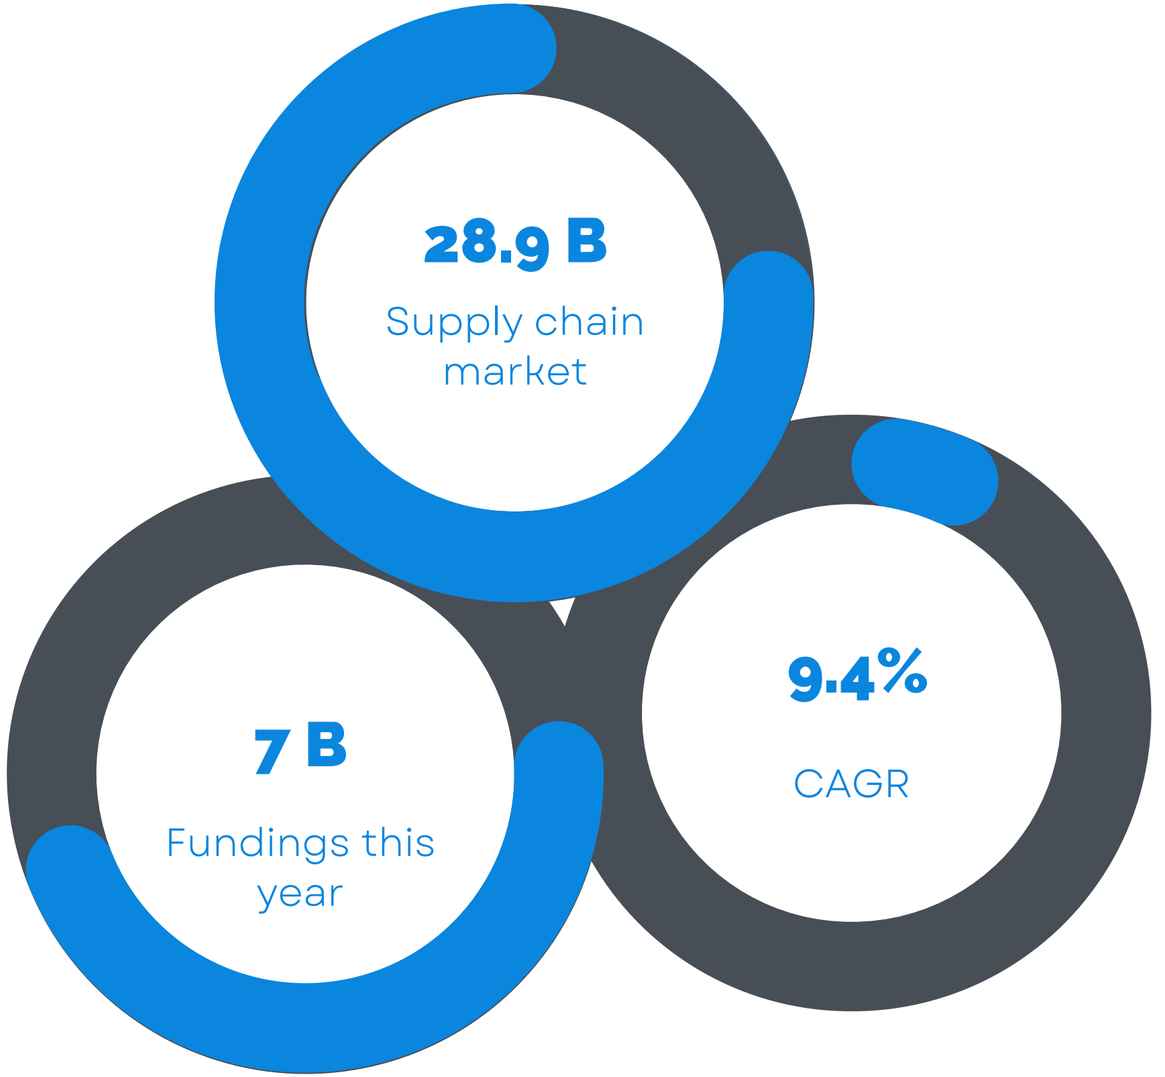
- **$3 Billion** a year is spent on paper by supply chain
- Still struggling with problems like
  - Lack of Visibility
  - Tamper-prone or unverifiable data
  - No single source of truth
  - A lot of manual documentations

MARKET SIZE

The global Supply Chain Management (SCM) market size is projected to grow from USD 28.9 billion USD in 2022 to USD 45.2 billion by 2027, at a Compound Annual Growth Rate (CAGR) of 9.4%.

The major factors driving the market are:

- Demand for greater visibility and transparency
- Advances in tech are making an evolution
- Net-zero goals



According to Forbes report, $50Trillion investment will be required globally to make the supply chains achieve net zero

OUR VALUE PROPOSITION

TRACEABILITY

VChained enables Nth tier traceability of the products throughout the entire product lifecycle. Get insights of your products with just a QR Scan.

The details entered at every step will be used by our Net-Zero module

SUSTAINABILITY

Calculate Footprints

Calculate your carbon footprint in real time with blockchain verified data.

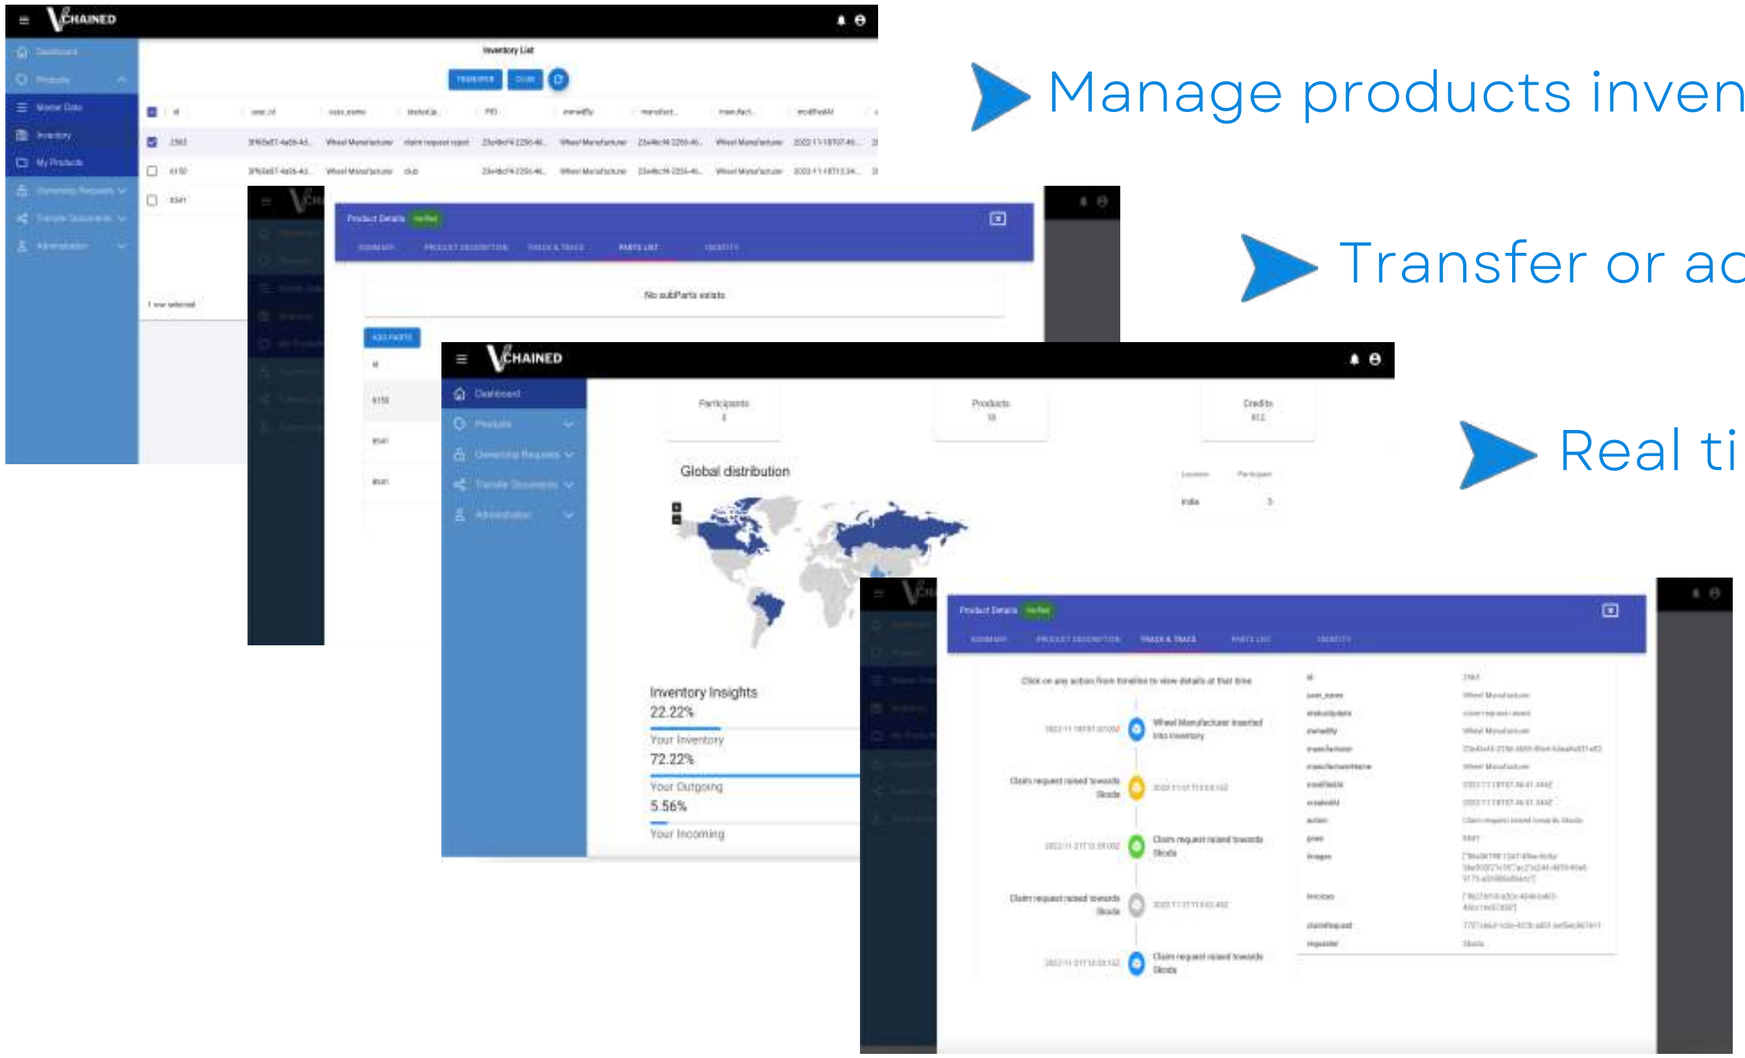
Reduce & Offset

Create reduction action plan , Offset the remaining from carbon credits NFT Marketplace

Interactive EcoLabels

Get VChained certified and showcase carbon neutrality labels on products, workplaces and events

TRACEABILITY



- Manage products inventory
- Transfer or add/remove sub parts
- Real time insights
- Get blockchain verified data

We are professionally run group of ordinary people extraordinarily determined to protect the environment not just by themselves

NO-LOW CODE SOLUTION

Saving Time, Costs and reducing Risks of supply chain management

No-Code

Use VChained dashboard to manage product inventory, invoices, deliveries from all your participants.

Low-Code

Connect your existing systems to VChained and start tracking on Blockchain while using existing tools

Plug & Play APIs

Connect to VChained APIs with IOT devices and use sensors to automate the tracking, no need of manual entries

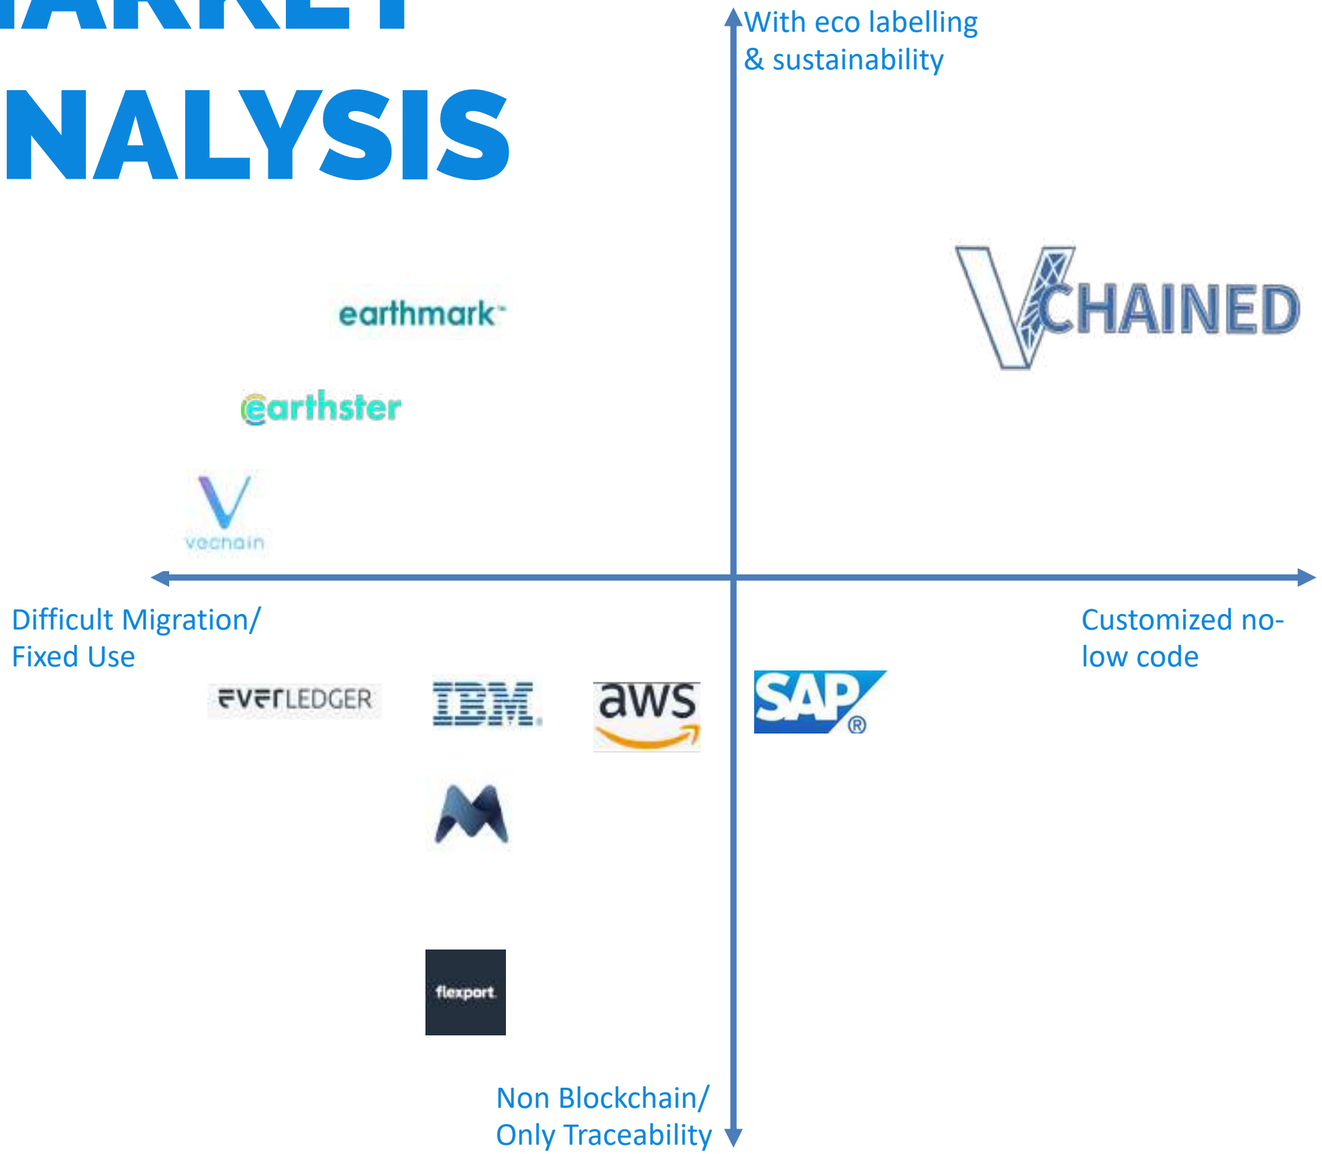
MARKET ANALYSIS



TARGET MARKET

- Medicine & Supplements
- Food & Beverages
- Logistics
- Automobiles
- Cosmetics
- D2C Brands

BUSINESS MODEL

Blockchain as a service(BAAS)

For Tezos Blockchain

BASIC PLAN
$100/mo.

- Tezos Blockchain
- Public RPC
- 10,000 credits
- Add any number of participants
- Add any number of products to your inventory.

ADVANCED PLAN
$1499/mo.

- Private blockchain setup
- Unlimited credits
- Add any number of participants
- Reports and Analytics
- Data Security and Backups
- Monthly Reports and Analytics

ENTERPRISE PLAN
Connect with sales

- Unlimited credits
- Add any number of participants
- Reports and Analytics
- Data security and Backup
- Monthly Reports and Analytics
- Carbon Footprint Calculation
- Carbon offsetting & Eco Labelling
- Monthly Reports and Analytics
- On-demand Add Ons

BUSINESS MODEL

Blockchain as a service(BAAS)

For Hyperledger Fabric

BASIC PLAN
$200/mo.

- Hyperledger Fabric
- Private Shared RPC
- 10,000 credits
- Add any number of participants
- Add any number of products to your inventory.

ADVANCED PLAN
$2999/mo.

- RAFT Network
- Private RPC
- Unlimited credits
- Add any number of participants & products
- Reports and Analytics
- Data Security and Backups
- Monthly Reports and Analytics

ENTERPRISE PLAN
Connect with sales

- Unlimited credits
- Add any number of participants
- Reports and Analytics
- Data security and Backup
- Monthly Reports and Analytics
- Carbon Footprint Calculation
- Carbon offsetting & Eco Labelling
- Monthly Reports and Analytics
- On-demand Add Ons
